Reviewer's report

Title: Effect of long-term of physical exercise on the nitrate/nitrite levels in hypertensive postmenopausal women

Version: 1 Date: 13 February 2009

Reviewer: José Luis NEYRO

Reviewer's report:

I would like to sugest a change of the paper's title as I think that the words "long-term" make s think on years... and the program of the physical exercise in this paper has been only of 6 mouonths.
The title I would like to proposse is " Effect of six mouths of physical exercise on the nitrate/nitrite levels in hypertensive postmenopausal women".

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
