Reviewer's report

Title: Diagnostics and interventions in complementary and mainstream medicine

Version: 2 Date: 11 December 2009

Reviewer: Fuschia M. Sirois

Reviewer's report:

Once again the authors have been very attentive to the reviewer comments and suggestions. As far as I can see the issues and minor points have been addressed and I have no further comments or suggestions for revision.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
