Reviewer's report

Title: Diagnostics and interventions in complementary and mainstream medicine

Version: 2 Date: 9 December 2009

Reviewer: Merrijoy Kelner

Reviewer's report:

The authors have worked hard to answer their critics and have improved the manuscript considerably. I now find it acceptable.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
