Reviewer's report

Title: Protective effect of aqueous extract from Spirulina (Arthrospira) platensis against oxidant-induced cell death

Version: 1 Date: 17 August 2010

Reviewer: Demetrios Kouretas

Reviewer's report:

1) The references do not correspond two the actual papers. Please check again.
2) The authors must perform at least one more functional assay to test the antioxidant activity of the extract because there are differences in the potency as shown in fig. 5 and 6.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
