Title: Use of complementary and alternative medicine by those with a chronic disease and the general population - results of a national population based survey

Version: 2 Date: 9 September 2010

Reviewer: Bob Phillips

Reviewer’s report:

I read this revised manuscript with pleasure. I have no further comments which require addressing; although I have alternative hypotheses for the use-pattern and different beliefs about efficacy of the therapies in question, this should not prevent publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
