Title: Liquid and vapour-phase antifungal activities of selected essential oils against Candida albicans: Microscopic observations and chemical characterization of Cymbopogon citratus

Version: 2 Date: 30 October 2010

Reviewer: Sydney Alves

Reviewer's report:

Previously we suggested Minor essential revisions.

Now we point:

Page 7: Determination of MIC and MFC

The first statement require correction; it would be: “Minimum fungicidal concentration (MFC) of essential oil was determined according .....

Page 8: “Candidastic and candidacidal concentrations” are not common expressions used in susceptibility tests; we suggest: “colorimetric method determination of inhibitory and fungicidal concentration of essential oils”
