Reviewer's report

**Title:** Polysaccharides from the root of Angelica sinesis promotes hematopoiesis and thrombopoiesis through the PI3K/AKT pathway

**Version:** 2  **Date:** 15 November 2010

**Reviewer:** Stan Heptinstall

**Reviewer's report:**

I am delighted that the authors have rewritten this paper. It is far, far better than the earlier version. Indeed, the authors' need to be congratulated on the clarity of the presentation. I no longer have any concerns.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests'
