Reviewer's report

Title: Effect of Some Plants used in folklore medicine in Jordan as Antibiotic Resistant Inhibitors on Escherichia coli

Version: 1 Date: 3 November 2009

Reviewer: Maria Leticia Miranda Fernandes Estevinho

Reviewer's report:

The article is poor to scientific level, and need a major revision on english, article organization and scientific errors.

Level of interest: An article of limited interest

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
