Reviewer’s report

**Title:** Suppression of low-density lipoprotein oxidation, vascular smooth muscle cell proliferation and migration by a herbal extract of Radix Astragali, Radix Codonopsis and Cortex Lycii

**Version:** 2  **Date:** 18 November 2010

**Reviewer:** hoyoung choi

**Reviewer’s report:**

Minor Essential revisions

The authors responded well to my concerns.

But I maintain that the author should give a brief explanation of why the concentrations of SR10 were different in the assays used.

Also the 1st and 2nd paragraphs need to be reorganized. My suggestions are that one paragraph may cover the association of diabetes and atherosclerosis and the next paragraph describes ROS and the role of PGDF –BB.

Also a few grammatical mistakes were found in the manuscript.

**Level of interest:** An article of limited interest

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
