Reviewer’s report

Title: The prevalence and experience of Australian naturopaths and Western herbalists working within community pharmacies

Version: 3 Date: 14 April 2011

Reviewer: Anthony Zhang

Reviewer’s report:

- Major Compulsory Revisions

Method:
How did the authors apply “means +/- standard errors, Wilcoxon Rank Sum tests and IQR” to the study? There is no information in the Result section?

- Minor Essential Revisions

Introduction:
Line 4, “solidly orthodox methods...” should be deleted or explained.

References:
Please deal with duplicated references.

Tables:
Please use the same format for Tables 1-3.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

'I declare that I have no competing interests’
