Reviewer’s report:

Major Compulsory Revisions
- None. The authors have adequately addressed the issues I raised in my previous review.

Minor Essential Revisions
1. The first paragraph of the background still refers to CAM products, herbal products as well as CAM products and herbal products. Now that a clear definition is provided showing that the term CAM products clearly includes herbal products, the phrasing CAM products should be used and the other terms removed. The other terms are not used again in the document.
2. Figures 1 and 2 are mixed up in several places. On page 8 the sentence refers to Figure 2 and then Figure 1 is indicated in the title of what figure should be placed at this point in the text. Similarly, on page 10 figure 1 is indicated in the text and Figure 2 is labeled as the figure to be inserted. Please clarify and make consistent with the actual figures.

Discretionary Revisions.
