Reviewer's report

Title: BACE1 inhibitory activity of fungal endophytic extracts from Malaysian medicinal plants

Version: 2 Date: 26 April 2011

Reviewer: X Shen

Reviewer's report:

It seems that this revised manuscript has made some improvement. However, two major questions that we ever mentioned (comments 2 and 4) have not been yet well responded. It is thus encouraged that the authors should show some data to give the response.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
