Reviewer's report

Title: Eriobotrya japonica hydrophilic extract modulates cytokines in normal tissues and within the tumor of Meth-A-fibrosarcoma bearing mice and enhance their survival time

Version: 1 Date: 12 November 2010

Reviewer: Hiroaki Takimoto

Reviewer's report:

The submitted manuscript describes the immunomodulatory effect of EJHE-WR against cancer. Materials and Methods section is complete and methods are well described. Experiments are clear cut. Results are interesting above all from a speculative point of view. Results are adequately discussed in the light of most recent papers on this matter.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
