Reviewer's report

**Title:** Feeding, stooling and sleeping patterns in infants with colic - description of patterns and the influence of minimal acupuncture in a randomized controlled trial

**Version:** 2  **Date:** 16 April 2011

**Reviewer:** Boosba Vivatvakin

**Reviewer's report:**

Minor Essential Revision
In the last table, no p-value fitting in, this should be corrected or reanalysed.

Discretionary Revisions
The data collection on the sleeping pattern is unclear, sleeping time is more accurate than the mother's subjective response of "better or much better".

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
