Reviewer's report

Title: Pleurotus giganteus (Berk.) Karunarathna & K.D. Hyde: Nutritional value and in vitro neurite outgrowth activity in rat pheochromocytoma cells

Version: 2 Date: 15 May 2012

Reviewer: Akira Suzuki

Reviewer's report:

This is a carefully done study and the findings are of interesting. A minor revision is as follows. Please keep one way when you describe the species name. In Background, Methods, and Results, you described the species name as P. giganteus from the second time of the description, but not in Discussion (you descrivbed it always as Pleurotus giganteus even when you descrivd it the second time, and so on).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
