Reviewer's report

Title: Immunological response in mice bearing LM3 breast tumor undergoing Pulchellin treatment

Version: 2 Date: 11 July 2012

Reviewer: Khalid Matalka

Reviewer's report:

The authors applied all the necessary changes that make the paper suitable for publication.

Minor things that the authors can do
1. changing the y axis of TNF-# (Fig2). The y-axis should start at 0 and not -20.
2. In Fig 1 x axis should cross y axis at 0.0 and not below it. In addition, the decimal should be a point (e.g. 1.5) and a comma (1,5).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
