Reviewer's report

Title: Effect of green tea extracts on oxaliplatin-induced peripheral neuropathy in rats

Version: 3 Date: 2 March 2012

Reviewer: Elizabeth K Joseph

Reviewer's report:

Please make the following minor revisions:

Page 1. Results:-thermal threshold values were significantly increased in oxaliplatin-treated rats compared with those in rat treated with oxaliplatin and green tea extract.

Is not the threshold decreased rather than increased in oxaliplatin treated rats?

Page 11.

Assessment of thermal threshold:---------taking green teat extracts (P < 0.05, Fig. 3).

Change to gree tea and not green teat.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interest in any of the questions asked.
