Reviewer’s report

Title: Evaluation of the effects of 80% methanolic leaf extract of Caylusea abyssinica (fresen.) Fisch. & Mey. on glucose handling in normal, glucose loaded and diabetic rodents

Version: 4 Date: 31 July 2012

Reviewer: PARDEEP kumar

Reviewer’s report:

Authors should include more specific keywords from the manuscript. Mostly given keywords are quite similar or related.

Authors did not include reference
Metabolic and molecular action of Trigonella foenum-graecum (fenugreek) and trace metals in experimental diabetic tissues.
Discussion section is still very longer and it should be shorten.
Conclusion should be more specific.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
