Reviewer’s report

Title: Physicochemical and antioxidant properties of Bangladeshi honeys stored for more than one year

Version: 2 Date: 13 September 2012

Reviewer: Sandra Mendoza

Reviewer's report:

Minor essential revision

The authors have attended most of the suggestion. However, they mention that the procedure to obtain the extracts was added to the main text of the manuscript, but I just could not find it. It is convenient to add this information. The recommendation is minor essential revision.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
