Reviewer’s report

Title: Protective effect of topical Cordia verbenacea in a rat periodontitis model: immune-inflammatory, antibacterial and morphometric assays.

Version: 2 Date: 20 July 2012

Reviewer: Maria Martha Campos

Reviewer’s report:

I am sorry but the answer the authors gave on Il-1alpha measurement is not appropriate. I myself use the kits from B&D for Il-beta. Please check this point.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
