Reviewer’s report

Title: Synergetic downregulation of 67kDa laminin receptor by the green tea (Camellia sinensis) secondary plant compound epigallocatechin gallate: a new gateway in metastasis prevention?

Version: 4 Date: 15 October 2012

Reviewer: Markus Helfer

Reviewer’s report:

The authors responded to all questions in an adequate way, as well as all parts of the manuscript that might be misleading were changed as suggested in the first report.

The authors response and meaning is clear to me and contributed to the correct understanding of the manuscript.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
