Reviewer’s report

**Title:** Development of an Integrated Sasang Constitution Diagnosis Method using Face, Body Shape, Voice, and Questionnaire Information

**Version:** 1  **Date:** 5 March 2012

**Reviewer:** Kylie O’Brien

**Reviewer’s report:**

Minor essential revision

1. Methods section: 1st line: Need to specify how many practitioners diagnosed the SC types

Discretionary revisions

1. Under the conclusion section, it would be useful to have an explanation of how the model used could be better refined and improved upon. Also, in a practical sense, is this diagnostic tool of use for clinicians at this point in time or is it not developed sufficiently?

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

I declare that I have not competing interests.
