Reviewer's report

Title: Antioxidant and antimicrobial activities of ethyl acetate extract, fractions and compounds from stem bark of Albizia adianthifolia (Mimosoideae).

Version: 1 Date: 26 May 2012

Reviewer: Muberra Kosar

Reviewer's report:

This manuscript is well prepared and clear.
The authors should check the Latin name of plant, especially the the name of species in all text and tables, as well. The first letter of species should be lower case.
The figure shapes should be change. Because the letter of significance can not readable.
The authors should more information about the traditional usage of the plant in the manuscript. And give relationship about traditional usage and rhe results.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
