Reviewer's report

**Title:** Edible Bird's Nest Extract as Chondro-protective Agent for Human Chondrocytes Isolated from Osteoarthritic Knee: In Vitro Study

**Version:** 4  **Date:** 16 November 2012

**Reviewer:** Ali Mobasher

**Reviewer's report:**

Major Compulsory Revisions
The English language must be improved.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Not suitable for publication unless extensively edited

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

The authors have submitted an improved manuscript but the quality is not nearly good enough. The English language must be further improved.
