Title: Evaluation of estrogenic, antiestrogenic and genotoxic activity of nemorosone, the major compound found in brown Cuban propolis

Version: 1 Date: 17 June 2013

Reviewer: Luca rastrelli

Reviewer's report:

This article reports on the estrogenic, antiestrogenic and genotoxic activity of nemorosone a isoprenylated benzophenone isolated from Cuban propolis. The scientific approach is rigorous and the article is well organized. Wide literature information is available.

The article is suitable for publication with Minor Revisions.
