Reviewer's report

**Title:** Beta-sitosterol induces G1 arrest and causes depolarization of mitochondrial membrane potential in breast carcinoma MDA-MB-231 cells

**Version:** 2 **Date:** 12 August 2013

**Reviewer:** suresh kumar

**Reviewer's report:**

Minor essential Revisions

Minor Essential Revisions.

Trypan blue is a diazo dye used to selectively color dead tissues or cells in blue color. What is “cells in blue color”? Please correct it.

The Trypan blue staining is visually examined? Better write “examined through microscope”.

The breast cancer cells MDA-MB 231 cells, at few places it is written as MDA-MD 231, please correct this.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
