Title: Features of Complementary and Alternative Medicine Use by Patients with Coronary Artery Disease in Beijing: A Cross-Sectional Study

Version: 3 Date: 10 September 2013

Reviewer: A Templeton

Reviewer’s report:

Overall, the points brought up have been adequately addressed and the manuscript has improved. In table 2 I still do not understand what “statistical value” means, this should be specified more clearly.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
