Title: Features of Complementary and Alternative Medicine Use by Patients with Coronary Artery Disease in Beijing: A Cross-Sectional Study

Version: 3 Date: 7 September 2013

Reviewer: Kehua Zhou

Reviewer’s report:

While the authors answered all my questions, I do have another two small ones as the following:

1. Page 7: The authors state “In addition, patients who used CAM for other purposes besides the management of CAD were also excluded.” Does it mean that these patients were excluded from both the CAM use group and the non-CAM group as well? If yes, how did you do it?

2. Page 15: Authors’ Contribution section: who wrote the manuscript?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
