Reviewer's report

Title: Total Nasal Resistance among Sasang Constitutional Types: A Population-Based Study in Korea

Version: 3 Date: 2 August 2013

Reviewer: Minwoo Hwang

Reviewer's report:

There are recommendations for some revisions as follows.

1. Background
   - Lee Jema (1837-1900) => Jema Lee (AD 1837-1900)
   - Tae-yang (TY), Tae-eum (TE), So-yang (SY), and So-eum (SE) => Tae-yang (TY), Tae-eum (TE), So-yang (SY) and So-eum (SE) type

2. Method- Classification of SCT
   - Although QSCCII has been frequently used to classify the SCT, the diagnostic power of the model is superior to that of QSCCII. => the concrete statement is required about "how much more is superior"

3. List of abbreviations
   TY: Tae-yang type
   TE: Tae-eum type
   SE: So-eum type
   SY: So-yang type

   (The same applies to the other parts, please.)

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
