Reviewer's report

Title: Murraya koenigii leaf extract inhibits proteasome activity and induces cell death in breast cancer cells

Version: 1 Date: 3 September 2012

Reviewer: Joseph K Agyin

Reviewer's report:

Major Compulsory Revisions

1. There are several grammatical errors in the manuscript that need to be corrected.

2. In the conclusions, the authors indicate that the extracts involved in this study may be further developed for treatment of cancers that are resistant to conventional therapy but there is no evidence to support this claim. This claim needs to be removed.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
