Reviewer's report

**Title:** Gallotannin-rich Caesalpinia spinosa fraction decreases the primary tumor and factors associated with poor prognosis in a murine breast cancer model

**Version:** 4  **Date:** 31 December 2012

**Reviewer:** Suranganie Dharmawardhane

**Reviewer's report:**

I am satisfied that the author’s have responded adequately to the original critiques. The quality of the micrographs is much improved.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
