Reviewer's report

Title: In vitro and in vivo antidermatophytic activity of dichloromethane-methanol (1:1 v/v) extract from the stem bark of Polyscias fulva Hiern (Araliaceae)

Version: 2 Date: 21 December 2012

Reviewer: MARTA A VATTUONE

Reviewer's report:

The paper is an interesting contribution to the study of antidermatophytic activity of a plant extract.

The methodology is appropriate to solve the purposes of the paper.

Results are clearly exposed and the discussion is a good interpretation of the obtained results.

The English needs a revision.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
