Reviewer's report

Title: Antioxidant and relaxant activity of fractions of crude methanol extract and essential oil of Artemisia macrocephala Jacquem.

Version: 2 Date: 12 January 2013

Reviewer: Vivek K. Bajpai

Reviewer's report:

Before accepting the MS for publication in BMC complementary and alternative medicine, I would like authors to check the antioxidant activity of A. macrocephala in some other antioxidant models including superoxide, hydroxyl and nitric oxide radicals to further improve the quality of the MS.

I would like to ask the authors to do the needful in the revised manuscript as per above mentioned statements.

I cannot accept the manuscript for publication at this stage, until authors revise their manuscript accordingly.

I can render my first decision once I receive the final revised copy of the manuscript after including the above mentioned corrections.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
