Title: Antioxidant effect of gallic acid from Phyllanthus emblica extract prevents contrast-induced acute kidney injury

Version: 2  Date: 28 March 2014

Reviewer: Ajith A.TH. T.A

Reviewer's report:

The revised MS entitled ‘Antioxidant effect of gallic acid from Phyllanthus emblica extract prevents contrast-induced acute kidney injury’ has been evaluated against the comments that has aroused during the initial evaluations. This reviewer found all the points are addressed well in the revised MS. Hence, the revised paper may be accepted for publication.
