Title: A Study of Antioxidant Activity, Enzymatic Inhibition and In vitro Toxicity of Selected Traditional Sudanese Plants with Anti-diabetic Potential

Version: 2  Date: 15 January 2014

Reviewer: mohammad ali ebrahimzadeh

Reviewer's report:

Manuscript: “A Study of Antioxidant Activity, Enzymatic Inhibition and In vitro Toxicity of Selected Traditional Sudanese Plants with Anti-diabetic Potentia”

It is a good manuscript and has some interesting results. I recommend it for publication. It needs only some minor correction:

1. Scientific name of plants should be italic throughout the text
2. Please make use of multiply sign (×) (via insert, symbol) instead of star (*) in equations.
3. Abbreviation of DPPH is wrong.
4. In Table 2, units of each column should be mentioned.
