Major Compulsory Revisions

Dear colleague

This article has moderate range in scientific view; furthermore, it has lot of problems in writing (such as grammar and structure) and was poor in writing style also very long-winded and wordy. I suggest to be totally edited by an English writer.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
