Reviewer's report

Title: Antioxidant activity of rosemary (Rosmarinus officinalis L.) essential oil and its hepatoprotective potential

Version: 2 Date: 21 April 2014

Reviewer: Woo-Sik Jeong

Reviewer's report:

Minor Essential Revisions;

The authors have appropriately responded all the questions and comments as referee requested.

- On page 11, the last paragraph "Antioxidant activity of rosemary essential oils was reported to be derived partly from the presence of phenolic groups" may need proper reference(s).

- High dose of alpha-pinene might have a toxic effect too.

- On page 16, first line, "a small amount can cause poisoning in small amounts in children" should be rephrased to "a small amount can cause poisoning in children"

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
