Reviewer’s report

Title: Alternative and antioxidant therapies utilization by a sample of infertile males in Jordan: a cross sectional study

Version: 2 Date: 21 April 2014

Reviewer: Natalie Clark

Reviewer’s report:

Minor Essential Revisions

- Please have another native English speaker review your Results section prior to publication. In several areas the wording in this section is awkward
- Consider adding a section reflecting upon the use of selenium and zinc to page 11 or 12
- Please add error bars to your bar graphs

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
