Reviewer’s report

Title: Effects of Korean Red Ginseng (Panax Ginseng Meyer) on Bisphenol A Exposure and Gynecologic Complaints: Single blind, randomized clinical trial of efficacy and safety

Version: 4 Date: 10 February 2014

Reviewer: Ki-Chan Ha

Reviewer’s report:

Major Compulsory Revisions
1. The authors should explain the reason why 2.7 g/day of KRG has been determined as administration dosage.
2. Authors should clarify primary outcomes and secondary outcomes in Abstract and main text, which should be the same as those in protocol. Currently, the description is vague.
3. What is the safety outcome measure?

Minor Essential Revisions
1. Fig3 the axis title (x, y-axis) Describe
2. The difference between group presented Fig5, 6.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
