Reviewer’s report

Title: Potential anti-osteoporotic effects of herbal extracts on osteoclasts, osteoblasts and chondrocytes in vitro

Version: 4 Date: 12 October 2013

Reviewer: Olga Meiri Chaim

Reviewer’s report:

Dear Editorial Office,

I do recommend the present form of the above mentioned manuscript for publishing in BMC Complementary and Alternative Medicine. Authors have considered the suggestions and clarified my minor points in the revised version. Hoping to have been helpful in maintaining the high standards of this journal.

Best regards.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
