Reviewer's report

Title: Chlorophytum borivilianum (Safed Musli) root extract prevents impairment in characteristics and elevation of oxidative stress in sperms of streptozotocin-induced adult male diabetic Wistar rats

Version: 1 Date: 11 June 2014

Reviewer: Sudipt Kumar Rath

Reviewer's report:

Minor Essential Revisions -
1. Safed Musli or Chlorophytum borivilianum (family: Liliaceae) is a highly valued medicinal plant in India and is considered as a “white gold” in Indian system of Ayurveda. (This needs reference).

Discretionary Revisions
1. The author might include more review of the previous works done in this field.
2. The author could include the phytochemical test results in order to show that their trial drug was of the desired quality.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
