Reviewer's report:

Minor Essential Revisions

1. Line 141: There is a missing "GFP". It should be GFP-labeled PC3 cells.
2. In Figure1, VitE was used instead of r-T3, which was used in the text. It is better to make them consistent.
3. Line 202: There should be a full stop after GFP cells.

Level of interest: An article of importance in its field
