Reviewer's report

Title: Anti-hyperglycemic activity of Centella asiatica is partly mediated by carbohydrase inhibition and glucose-fiber binding

Version: 4 Date: 3 November 2013

Reviewer: Shih-Liang Chang

Reviewer's report:

Major Compulsory Revisions
In comment #3, the author did not respond to the important part, the positive control is necessary to the effect of an unknown sample, not only to the interesting of audience. I still suggest having additional necessary experiments of positive control.

Minor Essential Revisions
In comment #9, please check the labels and illustrations of Fig 8&9 again!
