Reviewer's report

Title: Biopsychological traits of Sasang typology based on Sasang Personality Questionnaire and Body Mass Index

Version: 1 Date: 4 March 2014

Reviewer: Junsang Yu

Reviewer's report:

Major compulsory revisions:
in Discussion, you told that Big Little(Tae-So) comes from Confusianism and Yin-Yang comes from Daoism and Sasang is mixed with two categories, then what is the basis? I think you need to give the references for that.

In discussion, you told the limitations, among them, the third one is concerning for suggesting for the obesity. I think you don't have to talk about the obesity marker or tool in this article. It is quite different topic you are handing.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
