Reviewer's report

Title: Evaluation of antinociceptive effect of methanolic extract of leaves of Crataeva nurvala Buch.-Ham.

Version: 1 Date: 2 July 2014

Reviewer: Md. Rashidur Rahman

Reviewer's report:

Major Compulsory Revisions
I did not find any major revision that need to be taken by the authors.

Minor Essential Revisions
1. Page No 5, first paragraph, line No 1 (road side as author mentioned before that the plants grows in the banks of river/canal/lake).
2. Page No 5, second paragraph, line No 10 (institutional ethics committee but author did not mentioned which institution or university in this case).
3. Page No 8, third and fourth paragraph (involvement of opioid system and ATP-sensitive K+ channel pathway, add more references to claim these involvements).
4. Page No 10, second paragraph, line No 15 (writings spelling mistake).
5. Page No 11, first paragraph, line No 3 (substance P, among others, give a reference).

Discretionary Revisions
Author can correlate the findings with the chemical constituents possess by the Crataeva nurvala medicinal plant.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
