Reviewer’s report

**Title:** Effects of beta-sitosterol derived from Artemisia capillaris on the activated human hepatic stellate cells and dimethylnitrosamine-induced mouse liver fibrosis

**Version:** 5  **Date:** 17 September 2014

**Reviewer:** Tae Jin Kang

**Reviewer’s report:**

The authors have addressed some of the points raised by the reviewer. The revised manuscript is improved and data are clearly presented, which are worth to be published.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.

**Declaration of competing interests:**

I declare that I have no competing interests.
