Reviewer's report

Title: Treatment of severe fear of childbirth with haptotherapy: design of a multicenter randomized controlled trial

Version: 2
Date: 5 August 2014

Reviewer: Gary Elkins

Reviewer's report:

The manuscript presents a well written protocol of haptotherapy. The study design is adequate to test the hypothesis. Sufficient detail is provided for future replication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
