Reviewer's report

Title: Experimental assessment of antidiarrheal and antisecretory activity of 80% methanolic leaf extract of Zehneria scabra in mice

Version: 3 Date: 4 September 2014

Reviewer: Kishor Mazumder

Reviewer's report:

Major Compulsory Revision:
- E. coli induced antidiarrheal activity must be included to get more insight of mechanism of action.

Minor Essential Revisions:
- Phytochemical screening need to be elaborate with quantitative methods to furnish the manuscript.
- Purity of drugs and reagents need to mention.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
