Reviewer's report

Title: An Open Label Pilot Study to Evaluate the Efficacy of Spanish Black Radish on the Induction of Phase I and Phase II Enzymes in Healthy Male Subjects

Version: 2 Date: 26 October 2014

Reviewer: Kylie O'Brien

Reviewer's report:

Minor revisions only:
1. Page 7 line 142 - delete the comma between "and" & "heart rate" - not necessary
2. Page 8 Line 166 - space needed between "3" and "weeks"
3. Line 144. You have already spoken in the previous section about a limitation of the study being lack of a placebo comparison. You should mention it under the subheading Study Limitations. You could, for example, simply add words at the beginning of this section such as 'In addition to the previously mentioned limitation of a lack of comparison group, ....etc etc'

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
