Reviewer's report

Title: Vellozia flavicans Mart. ex Schult. hydroalcoholic extract inhibits the neuromuscular blockade-induced by Bothrops jararacussu venom

Version: 2 Date: 16 August 2013

Reviewer: Stella R Zamuner

Reviewer's report:

Major Compulsory Revisions
Article continues confused. The authors should explain why using a plant that has anti-inflammatory effect in a model of systemic effect. Still, the authors should test the antiinflammatory effect of plant against the inflammatory process that B. jararacussu venom causes and the literature already demonstrated.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
